RE: Minot Air Force Base Shoppette Project

Dear Glenn:

I am writing to express my sincere appreciation for the excellent services Griggs Group provided to the Army and Air Force Exchange Services (AAFES) at the Minot Air Force Base.

Working as our Architect, Griggs Group provided comprehensive construction services from project award through close-out documents. The project staff was always responsive and readily available. Most importantly, Griggs Group was also able to handle the multiple changes and modifications that were presented to them by AAFES near the end of the project and because of the quick turnover of the documents; Graham was still able to bring the project in on time.

Griggs Group has consistently conducted themselves in a professional manner in all situations and utilized a "team" approach on the project.

We look forward to working with Griggs Group team on other projects in the future.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Goudge", is written over a light gray background.
